

MUSIC LIFE STUDIOS

SERVICE MODULE LIBRARY — CORRECTED GENERATOR VERSION

These modules supplement the Music Life Studios Services Agreement only when selected in Schedule A.

The general 50% reservation deposit, 24-hour cancellation/rescheduling rule, file-retention rules, payment-effectiveness rules, and account-status rules remain in the Master Agreement and incorporated policies unless a module expressly changes them.

- work performed after the booked session ends.

5. Session Clock

Reasonable setup, file loading, creative discussion, recording, playback, exports, and session closeout performed during the appointment count toward booked time.

Late arrival does not automatically extend the scheduled end time.

Overtime requires Studio availability and Customer approval of the additional charge.

6. Customer Preparation

Customer should arrive with necessary beats, lyrics, reference material, and other project files reasonably ready for use.

Music Life Studios does not guarantee a particular output when Customer preparation, lateness, missing files, or creative indecision reduces productive recording time.

7. Reference Mix Status

The included Reference Mix or MP3 is provided for listening and creative reference.

It is not represented as:

- a full professional mix;
 - a final master;
 - a release-ready WAV; or
 - a substitute for separately purchased finishing services.
-

4. Complex Session Upgrade

1. pause before performing the additional paid work;
2. explain the expanded scope;
3. provide the additional price; and
4. obtain Customer approval.

5. Revision

The included revision covers reasonable adjustments to existing approved work.

It does not include:

- rerecording;

A revision does not include replacing the previously approved creative direction with a substantially different one.

Master Only does not include:

- correction of underlying problems that reasonably require mix access.

Music Life Studios may recommend an upgrade rather than attempt to correct unsuitable mix problems through mastering alone.

Streaming normalization, codecs, speakers, headphones, rooms, vehicles, devices, and platforms can cause ordinary playback differences.

Music Life Studios does not guarantee identical loudness or playback on every system.

6. Revisions

Revision allowance: **[FINAL BUSINESS DECISION REQUIRED BEFORE LAUNCH]**.

7. Membership Benefit

Where included in a Passport tier, the member receives the ordinary Master Only service described here.

Producer credit, composition splits, publishing interests, and any producer royalty must be stated in:

- Schedule A;
- the applicable beat license; and/or

6. Customer References and Samples

A Customer request to use a reference, sample, interpolation, or similar element may create third-party rights issues.

7. Rejected Concepts

Unless separately transferred in writing, rejected drafts, unused beat concepts, sketches, alternate concepts, and unused production ideas remain with Wiz.

MODULE 8 — BUILD-A-SONG

1. Price

Starting at **\$250**.

will be fully completed within three hours.

4. Included Output
