Licensee Legal Name: ____

Artist Name: ____

Reward Source: ____

Reward-Earned Date: ____

License Start Date: ____

License Version: ____

1. License

After valid reward redemption and acceptance of this License, Music Life Studios and/or the applicable producer ("Licensor") grants Licensee a limited, nonexclusive license to use the identified beat only as stated below.

This License does not transfer ownership of the underlying beat, Composition, producer copyright, publishing interest, or production.

Other artists may also license and release music using the same instrumental.

2. One Song

Licensee may create **one original song** using the licensed beat.

The new song may include Licensee's own vocals, lyrics, melody, and other authorized contributions.

This License does not authorize Licensee to claim ownership of the underlying beat.

3. Included Starter Uses

Subject to any usage caps stated in the License Summary, Licensee may use the resulting authorized song for:

- YouTube upload;

- music-video upload;
- Instagram;
- TikTok;
- Facebook;
- comparable social-media platforms;
- promotional or demo use;
- SoundCloud or comparable promotional platforms;
- Licensee's artist portfolio;
- promotional excerpts; and
- ordinary live artist performance.

YouTube monetization is permitted only if the final License Summary expressly identifies the applicable monetization limit or condition.

YouTube Monetization Terms: ____

4. DSP Distribution Not Included

This Starter Reward Beat License does **not automatically authorize broad commercial DSP distribution**, including release through services such as:

- Spotify;
- Apple Music;
- Amazon Music;
- DistroKid;
- TuneCore;
- CD Baby; or
- comparable broad commercial distribution services.

Before broad DSP distribution, Licensee must obtain an eligible **Commercial Beat Lease** or other written upgrade authorizing that use.

5. Uses Not Granted

Unless separately authorized in writing, Licensee may not:

- claim exclusive rights;
- claim ownership of the beat;
- claim ownership of the underlying Composition;
- claim Licensor's publishing interest;
- sell or resell the beat;
- sublicense the beat;
- transfer this License;
- distribute the beat by itself;
- use the beat for film, television, games, advertising, or other commercial synchronization;

- exceed stated usage limits;
 - create additional commercially exploited songs from the same license; or
 - represent that Licensee is the producer or copyright owner of the underlying beat.
-

6. Commercial Upgrade

Licensee may request an upgrade to an eligible Commercial Beat Lease before engaging in uses requiring that upgrade.

The upgrade price and any credit toward the upgrade must be stated before Licensee accepts the upgraded license.

Reward License Value for Upgrade, if established: \$__

Music Life Studios does not promise that every beat will remain available for every future upgrade.

If the beat later becomes subject to an exclusive sale, future upgrade availability will be governed by the existing License and the terms applicable to the beat at that time.

7. No Automatic Takedown Solely Because Time Passes

The 90-day reward-redemption deadline controls when the reward must be redeemed.

It does not by itself require Licensee to remove a properly authorized song after the License has been validly issued.

The rights that continue for an already authorized release are controlled by this License.

Existing Authorized Release Rights

[FINAL SURVIVAL LANGUAGE TO BE APPROVED]

Activities Requiring Renewal or Upgrade

At minimum, the final terms should address:

- new releases;
- new derivative versions;
- expanded monetization;
- additional synchronization;
- new commercial media uses;
- use above stated caps; and
- other materially expanded exploitation.

8. Nonexclusive Nature

Licensee understands:

This is a nonexclusive license. Other artists may also license and release music using the same instrumental. Licensee receives only the rights stated in this License and does not receive ownership of the underlying beat.

9. Content ID and Fingerprinting

Licensee may not register the underlying beat as though Licensee owns it.

Without Music Life Studios' prior written permission, Licensee may not enroll the beat or resulting song in YouTube Content ID or another automated fingerprinting system in a manner that:

- blocks another valid licensee;
- claims another authorized song;
- diverts monetization from another valid licensee;
- penalizes another authorized licensee; or
- makes a false claim of ownership over the underlying beat.

Sample-clearance responsibility: _____

No party receives greater rights in a third-party sample than that party lawfully controls.

12. Later Exclusive Sale

A later exclusive sale does not silently erase this License.

If this License was validly issued before an exclusive sale, its continuing rights are governed by its written terms.

Music Life Studios will not represent to a later exclusive purchaser that no prior licenses exist when valid prior licenses were issued.

13. Reward Payment Reversal

If the transaction or payment that generated the reward is later successfully refunded, charged back, fraud-reversed, or otherwise reversed after this License has already been issued, Music Life Studios will preserve the license record and may flag the matter for administrative or legal review.

The License will not be silently deleted from the historical record.

A copyright transfer requires a separate written assignment.

15. Acceptance

By accepting this License, Licensee confirms that Licensee understands:

1. the License is nonexclusive;
2. other artists may use the same instrumental under separate valid licenses;
3. Starter Reward rights are narrower than a Commercial Beat Lease;
4. broad DSP distribution is not included unless expressly added;
